NAME (please print)

COMPANY (please print)

Question 1: I am inquiring to see if relining the existing concrete box culverts using CSP arches would be acceptable as a light-weight and more cost-efficient method to replacement. Is it possible to open the tender to compare the cost of both options?

Answer: No. Relining the existing concrete box culverts using CSP arches is not acceptable for this project.

Question 2: Can the closing time be changed to 3:00 p.m. instead of 10:00 a.m.?

Answer: The Tender Closing is extended to Tuesday February 3, 2026 at 10:00 a.m. EST.

Question 3: Tender submittal requires a flash drive as part of the submittal. Can this be removed from the submittal?

Answer: A flash drive is not required as part of the submission.
